Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: A thorough discription of the Application and the prior art was given by the Attorney. In regards to claim 1, the language "location registration message includes information to determine whether or not a heterogeneous mobile communication system registers location information of the mobile terminal," has been determined to be specific and thus further consideration is required by the Examiner. Regarding claim 12, based on the comments and explanation of the claim language against prior art, the Examiner will reconsider the rejection..
